

**Distributor Spotlight:
Ryszard Lagodka, New York**

This month marks my 5th anniversary of being a distributor with ForMor. I was personally sponsored by my long time friend from Japan, Yoshinobu Ichikawa, but the person who made me excited about this company is my dear friend and business partner, Ragon Moore. Ragon and I conducted meetings in Nigeria, Canada, Singapore, Japan, and all over the states. Soon we will travel to Indonesia and Europe.

During the past five years I was able to develop a world wide organization reaching about 30 countries. My main way of building this great ForMor business is online. Once I get to know my new business associates I fly to meet them to become their friend. Building relationships is the core of this business, and if one wants to become successful in ForMor one needs to create long lasting relationships.

With the great products like NutraGenix, MSM 2000, etc., and an incredible business plan with an amazing world wide pool totaling 8%, I just have great time earning an amazing income with ForMor. I want to thank to all of the leaders in my ForMor organization as well as my upline for creating a great unified team.

After several hundred thousand dollars in earnings, I'm as excited today about ForMor as I was in July 1998. Special thanks to Gbotola Adeliyi, Ken Moses Enoghase, Misa Bai, Ragon Moore, Valentine Cawley, Bill, Siva, Fred, Harry, Lynn and Carlton Hurdle, Jacek and Kazimierz and most of all to my wife Rachel for being my greatest friend and business partner.
